

## FLAME RESISTANT COOL KNIT™ T-SHIRT

Everyone knows that Nomex® is sweaty, itchy, and uncomfortable when it's hot outside. Not anymore! Massif developed the world's first Nomex fabric designed to keep you comfortable when the heat is on. Our aptly named Cool Knit T-Shirt wicks sweat away from your skin, keeping you cool and dry. The lightweight four-way-stretch fabric moves with you and provides a trim fit to eliminate any uncomfortable bunching or chafing.

MADE IN THE USA

### FEATURES

- Four-way-stretch knit retains shape
- Highly compressible for easy packing
- Soft next-to-skin interior
- Lightweight performance fit maximizes comfort
- Available in Black and Coyote Tan

⊕ Designed and tested specifically to work with the Massif Fire and Ice Layering System

## KEEPS YOU COOL WHEN IT'S HOT

### MASSIF® FLAME RESISTANT TECHNOLOGY

Cool Knit passes the stringent ASTM D 6413/F2302-03 performance specifications for flame resistance to maximize safety during at-risk operations. The fabric will not melt or drip when exposed to flame. Massif Cool Knit fabric is proprietary to Massif.
