

FLAME RESISTANT / SOFTSHELL ELEMENTS™ PANT – U.S. ARMY

Field tested in Alaska, Afghanistan, Iraq, and South Korea, the Massif® Elements™ pant is engineered to perform in some of the world's most demanding cold weather conditions. Approved and issued by the U.S. Army as part of the FREE layering system, the triple-layer softshell fabric features a fleece-lined interior and windproof, waterproof, breathable membrane. Lower-leg cargo pockets provide easy access when strapped in, and knee-length boot zippers allow for rapid donning and doffing over uniforms. An ergonomic fit and four-way stretch increase comfort and range of motion.

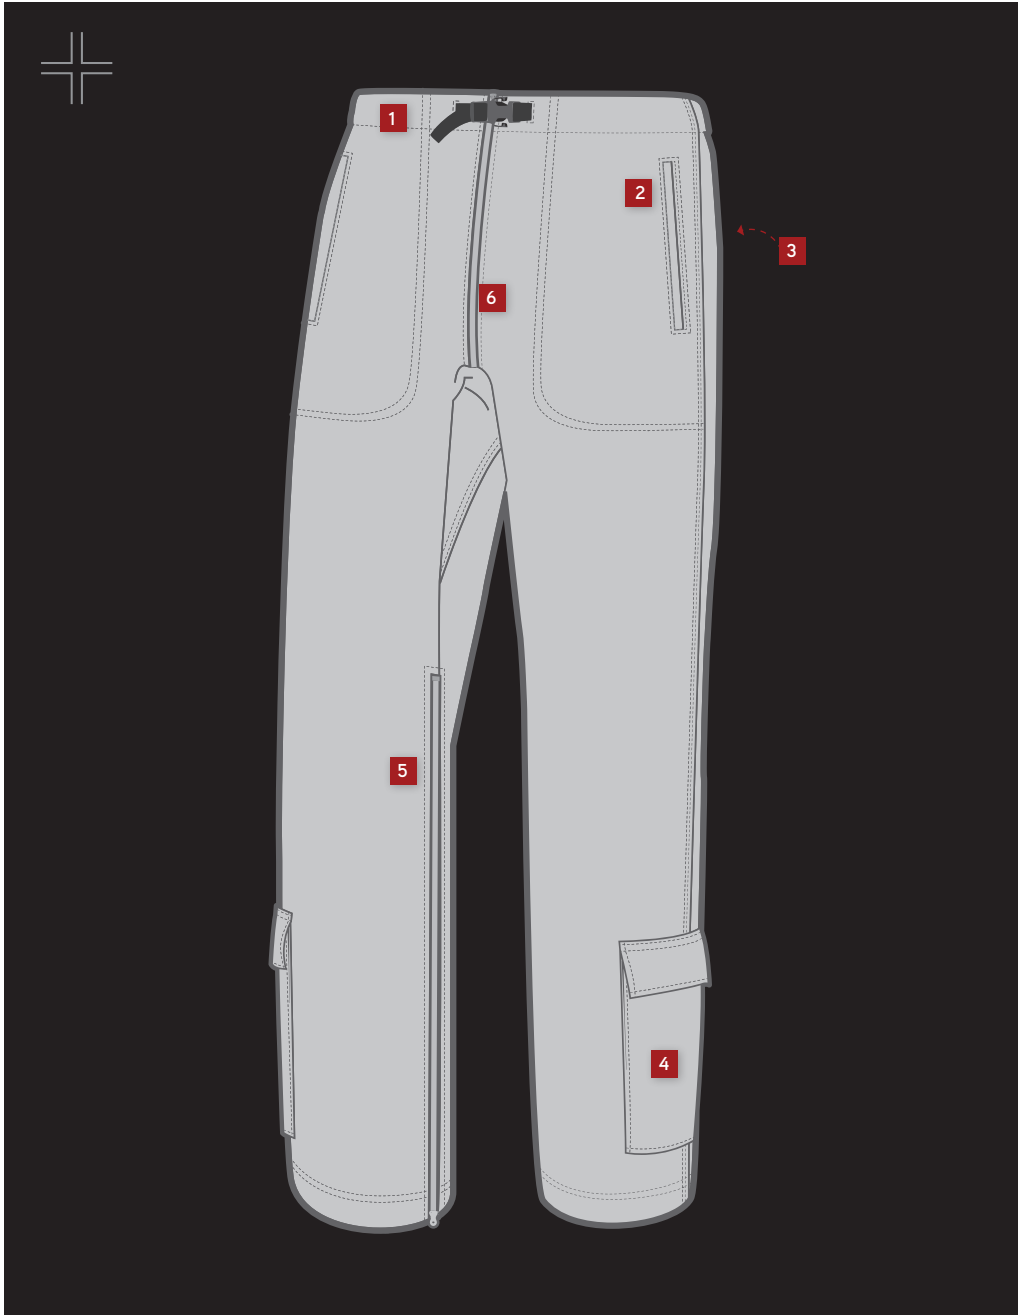

MADE IN THE USA

U.S. ARMY APPROVED – FREE LAYER 6 IWOL

MASSIF® FLAME RESISTANT TECHNOLOGY

Elements fabric passes the stringent ASTM F2302-03 performance specifications for flame resistance. In addition, Elements fabric exceeds flame and heat resistance performance requirements specified in the Radiant Protective Performance, Flame Resistance, and Heat and Thermal Shrinkage Resistance tests contained in the NFPA 1977-2005 protective clothing standard. Elements softshell fabric technology is proprietary to Massif.
