

# FLAME RESISTANT MASSIF® UNIVERSAL COMBAT SHIRT

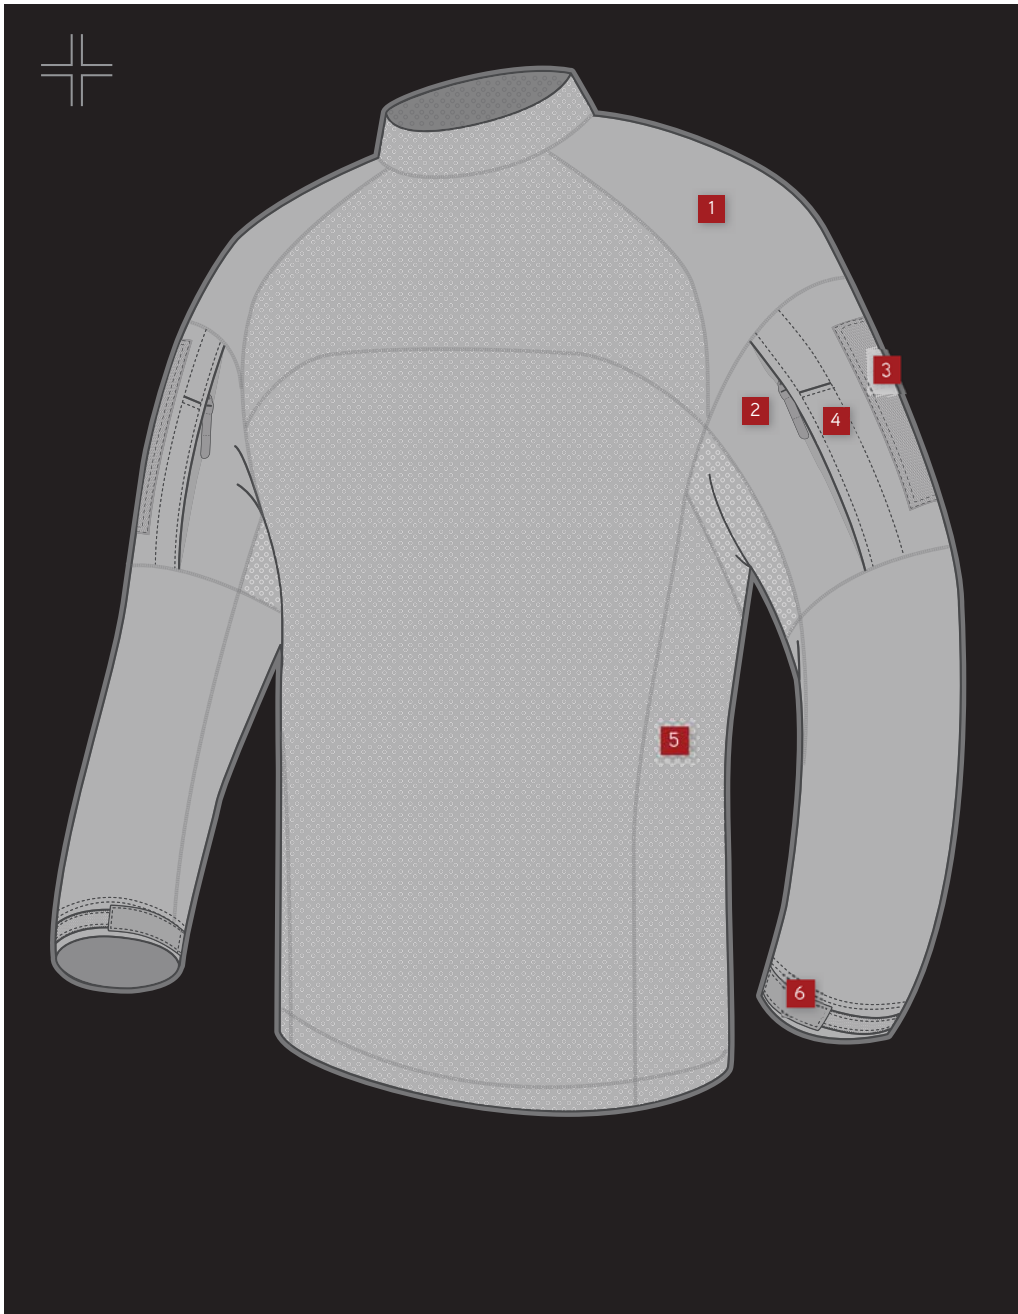

Modeled after Massif's revolutionary Army Combat Shirt, the Universal Combat Shirt (UCS) is designed for high-exertion tactical missions that demand FR protection. Extremely lightweight and breathable, the UCS moves when you do for increased comfort, agility, and speed. The multi-fabric design employs an ultra-light and exceptionally breathable fabric on the torso and under the arms, while the sleeves feature an abrasion-resistant "tough-knit" fabric for increased durability and additional FR protection. Both fabrics meet rigorous standards for true flame resistance in flash fire scenarios.

## FEATURES

### SMART DESIGN

- + Field-proven design incorporates feedback from soldiers with real-world combat experience
- + Low-profile design and fit prevent snags and ensure compatibility with equipment or other layers
- + Breathable, moisture-wicking Breeze fabric under arms helps you stay cool
- 1 Raglan sleeve design minimizes chaffing under tactical gear
- 2 Low-profile shoulder pockets provide easy access to gear
- 3 Velcro® patches on shoulders allow easy display of insignia
- 4 Built-in pen pocket slots on shoulders
- 5 Flat seams and no-seam side panels increase comfort under armor
- 6 Adjustable wrist cuffs allow for a custom fit and increased protection
- + Available in Tan and OD Green

## FABRIC

- ⊕ FLAME RESISTANT
- ⊕ 4-WAY STRETCH
- ⊕ BREATHABLE
- ⊕ WICKING

DESIGNED FOR SPECIAL FORCES, SWAT TEAMS, AND INTERNATIONAL FORCES.

### MASSIF® FLAME RESISTANT TECHNOLOGY

All fabrics pass the stringent ASTM F2302-03 performance specifications for flame resistance to maximize safety during at-risk operations. Breeze™ and Blaze™ fabric technologies are proprietary to Massif and provide increased FR protection over fabrics that meet only no melt/no drip criteria.
