

# ELEMENTS™ JACKET - CWAS WITH BATTLESHIELD X® FABRIC

Designed for the U.S. Air Force, authorized Safe-to-Fly, and approved for all aircrew, all platforms, the Massif Elements Jacket Cold Weather Aviation System (CWAS), offers in-flight, world-class performance using Massif® Battleshield X® fabric, a flame resistant nylon-faced laminate featuring Gore® stretch technology. A low profile, ergonomic fit allows for maneuvering in tight spaces without compromising access to gear and hose port systems. This softshell jacket prioritizes fit and functionality resulting in a garment that performs when you do.

- + Constructed with DuPont™ Nomex® brand fiber
- + Superior Durability
- + Highly Water Resistant
- + Windproof breathable membrane
- + 4-way stretch for better maneuverability
- + Easy access to hose port systems
