The U.S. Army Elements™ Jacket + Pant - IWOL is a testament to Massif®'s determination for exceptional performance in the most challenging environments. After being rigorously tested by troops worldwide, this system was crafted with the Massif® Battleshield X® FR fabric - featuring WINDSTOPPER® by GORE-TEX® LABS and a fleece lining made from Massif® Flamestretch® with DuPont™ Nomex® brand fiber to offer inherent flame resistance, unmatched durability, and extreme comfort. The multi-directional stretch, excellent water resistance, and optimal warmth-to-weight ratio make it a superior choice to wear standalone or under a pack or body armor. While functional elements like specific zippered pockets, hand warmer pockets, and a pass-through flap on the Jacket for CVC extraction straps, ensure the end user is ready for any situation.

JACKET FEATURES:

- Fullflame-resistant construction with proprietary Massif® fabrics
- 4-way stretch fabric
- Battleshield X® softshell fabric featuring WINDSTOPPER® technology by GORE-TEX® LABS
- Highly water-resistant, 100% windproof, and very breathable membrane
- Tall fleece-lined collar
- Zippered chest pocket and sleeve cargo pocket
- Zippered fleece-lined hand-warmer pockets
- Adjustable hem drawcord
- Dual-Compartment Forearm Pen Pockets secured with Velcro®
- Concealable IFF tab
- Internal wrist debris protection cuffs
- Loop for name, rank, flag, and unit tape
- Pass-through flap for CVC extraction strap
- Machine washable
- Locker Loop

PANT FEATURES:
