

ELEMENTS™ JACKET - CWAS

Designed for the U.S. Air Force and authorized Safe-to-Fly, approved for all aircrew and all platforms, the Massif Elements Jacket Cold Weather Aviation System (CWAS) offers in-flight, world-class performance using Massif® Battleshield X® FR fabric, a flame-resistant nylon-faced laminate featuring Gore® FR stretch technology. A low profile, ergonomic fit allows for maneuvering in tight spaces without compromising access to gear and hose port systems. The Elements Jacket offers exceptional breathability, durability, and prioritizes fit and functionality for a garment that performs when you do.

- + Full flame-resistant construction with proprietary 4-way stretch Massif® fabrics
- + Highly water-resistant
- + Windproof, breathable membrane
- + Easy access to hose port systems
- + Adjustable cuffs for custom fit
- + Available in Sage Green & Multicam®

PART # MJKT00059

The MASSIF Mission:

Our passion is to design and create advanced technical apparel that protects the United States Military and those working in the world's most challenging environments
