STRATO LOW LOFT™ JACKET

Reversible
Insulative
Layer

Massif® built our first low loft thermal layer to deliver enough insulation to keep the toughest working soldiers warm while maintaining hyper breathability to eliminate overheating. The Strato Low Loft™ Jacket Non-FR is fully reversible with one OCP side and one black side allowing it to provide cover day and night alike. We built hand pockets into both the OCP and black sides so soldiers can store and access essential kit items. When not in use, the Strato Low Loft™ Jacket can be easily stuffed into its hand pocket and has a drawstring closure that keeps it secure when not deployed. The Strato Low Loft™ Jacket is insulated with top of the line synthetic Primaloft® Gold, which delivers a best in class warmth-to-weight ratio, still retains loft when wet, and allows heat and moisture to escape through the jacket. The athletic cut, articulated arms, and elastic cuffs make it quick and easy to layer over with an existing kit, even though its extreme versatility in challenging environments means soldiers probably won't need to.

PART NUMBERS:

STRATO LOW LOFT™ JACKET
#MJKT00069

OVERALL FEATURES:

- Fully reversible
- Insulated hand pockets on the OCP side
- Elastic hem, cuff, and hood opening
- Chest pocket on the solid side
- Packable — chest pocket doubles as a stuff sack with clip loop
- Lightweight — only .965 lb / 15.45 oz with self-healing zippers on hand and chest pockets
- Articulated elbows
- Dropped tail
- Snag-resistant CF zipper flap
- Treated with Durable Water Repellent (DWR)
- Primaloft® Gold Active Plus Insulation
